Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the “PRIIPs Regulation”) for offering or selling the notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

MiFID II Product Governance / Professional Investors and ECPs Only Target Market

Solely for the purposes of each manufacturer’s product approval process, the target market assessment in respect of the notes has led to the conclusion that: (i) the target market for the notes is eligible counterparties and professional clients only, each as defined in MiFID II; and (ii) all channels for distribution of the notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the notes (a “distributor”) should take into consideration the manufacturers’ target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the notes (by either adopting or refining the manufacturers’ target market assessment) and determining appropriate distribution channels.

SUMMARY

The Company

We are a Virginia holding company incorporated in 1985. Our wholly-owned subsidiaries include PM USA, which is engaged in the manufacture and sale of cigarettes in the United States; John Middleton Co., which is engaged in the manufacture and sale of machine-made large cigars and pipe tobacco and is a wholly-owned subsidiary of PM USA; Sherman Group Holdings, LLC and its subsidiaries, which are engaged in the manufacture and sale of super premium cigarettes and the sale of premium cigars; and UST LLC, which through its wholly-owned subsidiaries, including U.S. Smokeless Tobacco Company LLC and Ste. Michelle Wine Estates Ltd., or Ste. Michelle, is engaged in the manufacture and sale of smokeless tobacco products and wine. Our other operating companies include Philip Morris Capital Corporation, which maintains a portfolio of finance assets, substantially all of which are leveraged leases, and Nu Mark LLC, both of which are wholly-owned subsidiaries. In December 2018, we announced the decision to refocus our innovative product efforts, which includes the discontinuation of production and distribution of all *MarkTen*[®] and *Green Smoke*[®] evapor products. Prior to that time, Nu Mark LLC was engaged in the manufacture and sale of innovative tobacco products. Our other wholly-owned subsidiaries include Altria Group Distribution Company, which provides sales and distribution services to certain of our operating subsidiaries, and Altria Client Services LLC, which provides various support services in areas such as legal, regulatory, consumer engagement, finance, human resources and external affairs to us and our subsidiaries.

Our access to the operating cash flows of our wholly-owned subsidiaries consists of cash received from the payment of dividends and distributions, and the payment of interest on intercompany loans by our subsidiaries. At December 31, 2018, our principal wholly-owned subsidiaries were not limited by long-term debt or other agreements in their ability to pay cash dividends or make other distributions with respect to their equity interests. In addition, we had an approximate 10.1% ownership of Anheuser-Busch InBev SA/NV, or AB InBev, and a 35% economic interest in JUUL Labs, Inc., or JUUL (see “Summary—Recent Developments—JUUL Investment”), in each case, at December 31, 2018.

The brand portfolios of our tobacco operating companies include *Marlboro*[®], *Black & Mild*[®], *Copenhagen*[®] and *Skoal*[®]. Ste. Michelle produces and markets premium wines sold under various labels, including *Chateau Ste. Michelle*[®], *Columbia Crest*[®], *14 Hands*[®] and *Stag's Leap Wine Cellars*[™], and it imports and markets *Antinori*[®], *Champagne Nicolas Feuillatte*[™], *Torres*[®] and *Villa Maria Estate*[™] products in the United States.

Our principal executive offices are located at 6601 West Broad Street, Richmond, Virginia 23230, our telephone number is (804) 274-2200 and our website is www.altria.com. Recent Developments

Cronos Investment

On December 7, 2018, we entered into an agreement to purchase, through a subsidiary, approximately 146.2 million newly issued common shares of Cronos Group Inc., or Cronos, a global cannabinoid company headquartered in Toronto, Canada (the “Cronos transaction”). We expect the transaction to close in the first half of 2019. Upon completion of the Cronos transaction, we will own an approximate 45% equity interest in Cronos. The purchase price for the approximate 45% equity interest is approximately CAD \$2.4 billion (approximately \$1.8 billion, based on the CAD to U.S. dollar exchange rate on January 25, 2019), to be paid on the date of the closing of the transaction. Additionally, the agreement includes a warrant to purchase up to an additional approximately 72.2 million common shares of Cronos at a per share exercise price of CAD \$19.00. Upon full exercise of the warrant, which expires four years after issuance, we would own approximately 55% of the

outstanding common shares of Cronos. The exercise price for the warrant is approximately CAD \$1.4 billion (approximately \$1.0 billion, based on the CAD to U.S. dollar exchange rate on January 25, 2019). We believe this investment will position us to participate in the emerging global cannabis sector and also create a new growth opportunity in a category adjacent to our core tobacco business. We caution you that we may not realize the expected benefits of the Cronos transaction.

As a part of the agreement, upon completion of the Cronos transaction and so long as we continue to hold at least 40% of the outstanding common shares of Cronos, we will have the right to nominate four directors, including one independent director, to serve on Cronos' board of directors, which will be expanded from five to seven directors. In the event we no longer hold 40% of the outstanding common shares of Cronos, but hold more than 10%, we will be entitled to nominate a number of directors that represents our then-proportionate share of the number of directors comprising Cronos' board of directors.

We expect to account for our investment in Cronos under the equity method of accounting. The completion of the Cronos transaction is subject to certain customary closing conditions, including approval of Cronos shareholders and receipt of regulatory approvals. We submitted our application for regulatory review under the Investment Canada Act in late December of 2018 and Cronos' shareholders are scheduled to vote on the transaction on February 21, 2019.

JUUL Investment

On December 20, 2018, we entered into an agreement with JUUL, the U.S. leader in e-vapor, pursuant to which we, through a wholly-owned subsidiary, purchased shares of JUUL's non-voting class C-1 common stock for a price of \$12.8 billion (the "JUUL transaction"), which will convert automatically to shares of JUUL's voting class C common stock if and when antitrust clearance is obtained. In addition, we received a security convertible into additional shares of JUUL's class C-1 non-voting common stock or class C voting common stock, as applicable, for no additional payment upon settlement or exercise of certain JUUL convertible securities. As a result of the JUUL transaction, we own 35% of the issued and outstanding capital stock of JUUL. Upon conversion of our non-voting common stock to voting common stock, except to the extent that our percentage ownership has decreased, we will have the right to designate one-third of the members of the JUUL board of directors, subject to proportionate downward adjustment if our percentage ownership falls below 30%. We received a broad preemptive right to purchase JUUL shares to maintain our ownership percentage and are subject to a standstill restriction under which we may not acquire additional JUUL shares above our 35% interest. We also agreed not to sell or transfer any JUUL common shares for six years from December 20, 2018.

We believe that investing in the leading U.S. e-vapor company better positions us with adult smokers interested in alternatives and provides exposure to international growth plans. We caution you that we may not realize the expected benefits of the JUUL transaction. See "Risk Factors—Risks Related to Our Investment in JUUL."

On February 4, 2019, we filed our application for antitrust clearance under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended. Upon receipt of anti-trust clearance, our non-voting common stock converts to voting common stock, at which point we expect to account for our investment in JUUL under the equity method of accounting.

In connection with the JUUL transaction, we also entered into a services agreement with JUUL pursuant to which we agreed to provide JUUL with certain commercial services, as requested by JUUL, for an initial term of six years. Among other things, we may provide services to JUUL with respect to logistics and distribution, access to retail shelf space, youth vaping prevention, cigarette pack inserts and onserts, regulatory matters and

government affairs. We have also agreed to grant JUUL a non-exclusive, royalty-free perpetual, irrevocable, sublicenseable license to our non-trademark licensable intellectual property rights in the e-vapor field, subject to the terms and conditions set forth in an intellectual property license agreement between us and JUUL. We have agreed to non-competition obligations generally requiring that we participate in the e-vapor business only through JUUL as long as we are supplying JUUL services, which we are committed to doing for at least six years.

Term Loan Agreement

On December 20, 2018, we entered into a term loan agreement, or the Term Loan Agreement, with JPMorgan Chase Bank, N.A., as administrative agent, and the lenders party thereto, in connection with our investments in Cronos and JUUL. The Term Loan Agreement provides for borrowings up to an aggregate principal amount of \$14.6 billion and is comprised of (i) a \$12.8 billion tranche, which we used to finance the JUUL transaction, and (ii) a \$1.8 billion tranche, which is available, subject to certain customary conditions to borrowing, to finance the Cronos transaction and remains undrawn. At December 31, 2018, our borrowings under the Term Loan Agreement totaled \$12.8 billion.

The net proceeds of this offering will be used to prepay outstanding borrowings under our Term Loan Agreement used to finance the JUUL transaction. Any remaining net proceeds will be used to finance our investment in Cronos and for other general corporate purposes. In addition to the proceeds from this offering, we have offered, pursuant to a separate prospectus supplement, additional notes denominated in euros at varying maturities. The euro notes offering launched and priced on February 11, 2019 and is expected to close on February 15, 2019. This prospectus supplement is not an offer with respect to the euro notes offering and the consummation of this offering is not contingent on the consummation of the euro notes offering.

Cost Reduction Program

On December 19, 2018, our Board of Directors approved a cost reduction program that we expect will deliver approximately \$575 million in annualized cost savings by the end of 2019. The program includes, among other things, third-party spending reductions across the business and workforce reductions. We recorded pre-tax charges of \$121 million in the fourth quarter of 2018 related to the program.

Optional Tax Redemption

We may redeem all, but not part, of the notes of each series upon the occurrence of specified tax events described under “Description of Notes—Redemption for Tax Reasons.”

Repurchase at the Option of Holders upon Change of Control Triggering Event

If a change of control triggering event (as defined in “Description of Notes—Repurchase Upon Change of Control Triggering Event”) occurs, we will be required to make an offer to purchase the notes at a purchase price of 101% of the aggregate principal amount of the notes, plus accrued and unpaid interest, if any, to the date of repurchase. See “Description of Notes—Repurchase Upon Change of Control Triggering Event.”

Covenants

We will issue the notes under an indenture containing covenants that restrict our ability, with significant exceptions, to:

- incur debt secured by liens; and
- engage in sale and leaseback transactions.

Use of Proceeds

We will receive net proceeds (before expenses) from this offering of approximately \$11,391,915,000. We intend to use the net proceeds (after expenses) from this offering to prepay outstanding borrowings under our Term Loan Agreement used to finance the JUUL transaction. Any remaining net proceeds will be used to finance our investment in Cronos and for other general corporate purposes.

No Listing

We do not intend to list the notes on any securities exchange or to include them in any automated quotation system. The notes will be new securities for which there is currently no public market. See “Risk Factors—Risks Related to the Offering—There is no public market for the notes, which could limit their market price or your ability to sell them.”

Clearance and Settlement

The notes will be cleared through The Depository Trust Company, or DTC, including its participants Clearstream Banking, *soci  t   anonyme*, or Clearstream, and Euroclear Bank SA/NV, as operator of the Euroclear System, or Euroclear.

Conflict of Interest

Certain affiliates of the underwriters will receive at least 5% of the net proceeds of this offering in connection with the repayment of our outstanding amounts under the Term Loan Agreement. See “Use of Proceeds.” Accordingly, this offering is being made in compliance with the requirements of FINRA Rule 5121. In accordance with that rule, no “qualified independent underwriter” is required because the securities will be rated investment grade.

Risk Factors

Investing in the notes involves risks. See “Risk Factors” beginning on page S-11 for a discussion of the factors you should consider carefully before deciding to invest in the notes.

Trustee

Deutsche Bank Trust Company Americas.

RISK FACTORS

An investment in the notes involves risks, including risks inherent in our business. You should carefully consider the following factors as well as other information contained or incorporated by reference in this prospectus supplement before deciding to invest in the notes, including the factors listed under “Risk Factors” in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2017 and our Quarterly Report on Form 10-Q for the quarter ended September 30, 2018, which Annual Report on Form 10-K and Quarterly Report on Form 10-Q are incorporated by reference in this prospectus supplement.

Risks Related to the Offering

Under certain circumstances, PM USA’s guarantee of the notes will be released.

PM USA’s guarantee of the notes will be released upon the earliest to occur of:

- the date, if any, on which PM USA consolidates with or merges into us or any successor of us;
- the date, if any, on which we or any successor consolidates with or merges into PM USA;
- payment in full of the notes; and
- the rating of our long-term senior unsecured debt by S&P of “A” or higher.

If PM USA is released from its guarantee of the notes, it will have no obligation to pay any amounts due on the notes or to provide us with funds for the payment of our obligations. In addition, as described under “Description of Guarantees of Debt Securities—Amendment” in the attached prospectus, the guarantee may be amended with the approval of the holders of more than 50% in aggregate principal amount of a series of notes.

In the event of the release of PM USA’s guarantee, our right, as the equity holder of PM USA, to receive any assets of such subsidiary upon its liquidation or reorganization, and therefore the right of the holders of the notes to participate in those assets, will be effectively subordinated to the claims of PM USA’s creditors, including trade creditors.

Federal and state statutes allow courts, under specific circumstances, to void guarantees and require noteholders to return payments received from PM USA.

Under applicable provisions of federal bankruptcy law or comparable provisions of state fraudulent transfer law, PM USA’s guarantee could be voided, or claims in respect of PM USA’s guarantee could be subordinated to the debts of PM USA, if, among other things, PM USA, at the time it incurred the obligation evidenced by its guarantee:

- received less than reasonably equivalent value or fair consideration therefor; and
- either:
 - was insolvent or rendered insolvent by reason of such occurrence;
 - was engaged in a business or transaction for which the assets of PM USA constituted unreasonably small capital; or
 - intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as they mature.

In addition, under such circumstances, the payment of amounts by PM USA pursuant to its guarantee could be voided and required to be returned to PM USA, or to a fund for the benefit of PM USA, as the case may be.

Table of Contents

The measures of insolvency for purposes of the foregoing considerations will vary depending upon the law applied in any proceeding with respect to the foregoing. Generally, however, PM USA would be considered insolvent if:

- the sum of its debts, including contingent liabilities, was greater than the saleable value of its assets, all at a fair valuation;
- the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or
- it could not pay its debts as they become due.

To the extent PM USA's guarantee is voided as a fraudulent conveyance or held unenforceable for any other reason, the holders of the notes would not have any claim against PM USA and would be creditors solely of us.

The notes and the guarantee will be effectively junior to secured indebtedness that we or PM USA may issue in the future.

The notes and the guarantee are unsecured. Holders of any secured debt that we or PM USA may issue in the future may foreclose on the assets securing such debt, reducing the cash flow from the foreclosed property available for payment of unsecured debt, including the notes. Holders of our or PM USA's secured debt also would have priority over unsecured creditors in the event of our bankruptcy, liquidation or similar proceeding. As a result, the notes will be effectively junior to any secured debt that we may issue in the future and the guarantee will be effectively junior to any secured debt that PM USA may issue in the future.

We may not be able to repurchase all of the notes upon a change of control triggering event.

As described under "Description of Notes—Repurchase Upon Change of Control Triggering Event," we will be required to make an offer to purchase the notes of a series upon the occurrence of a change of control triggering event with respect to such notes. We may not have sufficient funds to repurchase such notes in cash at that time or have the ability to arrange necessary financing on acceptable terms. In addition, the terms of our other debt agreements or applicable law may limit our ability to repurchase such notes for cash.

There is no public market for the notes, which could limit their market price or your ability to sell them.

The notes are a new issue of securities for which there currently is no trading market. As a result, we cannot provide any assurances that a market will develop for the notes or that you will be able to sell your notes. If any of the notes are traded after their initial issuance, they may trade at a discount from their initial offering price. Future trading prices of the notes will depend on many factors, including prevailing interest rates, the market for similar securities, general economic conditions and our financial condition, performance and prospects. Accordingly, you may be required to bear the financial risk of an investment in the notes for an indefinite period of time. We do not intend to apply for listing or quotation of the notes on any securities exchange or automated quotation system, respectively.

Risks Related to our Investment in JUUL

Antitrust clearance required for the conversion of our non-voting JUUL shares into voting shares may not be obtained in a timely manner or at all, and the expected benefits of the JUUL transaction may not materialize in the expected manner or timeframe or at all.

Antitrust clearance required for the conversion of the non-voting JUUL shares held by us into voting shares may not be obtained in a timely manner or at all, and such clearance may be subject to unanticipated conditions. Unless and until such antitrust clearance is obtained, including expiration or termination of any applicable waiting period (or extension thereof) under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as

Table of Contents

amended, and any rules and regulations promulgated thereunder, our JUUL shares will not have voting rights and we will not be entitled to certain other rights, including the right to appoint any directors to the JUUL Board of Directors. Accordingly, failure to obtain antitrust clearance would adversely affect us, including because it would substantially limit our rights with respect to our investment in JUUL and would prevent us from accounting for our investment in JUUL using the equity method.

In addition, regardless of whether antitrust clearance is obtained, the expected benefits of the JUUL transaction, such as any equity earnings and receipt of cash dividends, may not materialize in the expected manner or timeframe or at all, including due to the risks encountered by JUUL in its businesses, such as operational risks and regulatory risks at the international, federal and state levels, including actions by the U.S. Food and Drug Administration; unanticipated impacts on JUUL's relationships with employees, customers, suppliers and other third parties; potential disruptions to JUUL's management or current or future plans and operations due to the JUUL transaction; or domestic or international litigation developments, investigations, or otherwise. Failure to realize the expected benefits of our JUUL investment could adversely affect the value of the investment. If a qualitative assessment of impairment of our JUUL investment were to indicate that its fair value is less than its carrying value, the investment would be written down to its fair value, which could have a material adverse effect on the consolidated results of operations or financial position of Altria.

USE OF PROCEEDS

We will receive net proceeds (before expenses) from this offering of approximately \$11,391,915,000. We intend to use the net proceeds (after expenses) from this offering to prepay outstanding borrowings under our Term Loan Agreement used to finance the JUUL transaction. Any remaining proceeds will be used to finance our investment in Cronos and for other general corporate purposes.

If we do not use the proceeds immediately, we may temporarily invest them in short-term, interest-bearing investments.

At December 31, 2018, the interest rate for the outstanding borrowings under the Term Loan Agreement was approximately 3.5%. Borrowings under the Term Loan Agreement mature on December 19, 2019.

On or after August 14, 2048 (the date that is six months prior to the scheduled maturity date of the notes due 2049), we may, at our option, redeem the notes due 2049, in whole at any time or in part (equal to \$2,000 or an integral multiple of \$1,000 in excess thereof) from time to time, at a redemption price equal to 100% of the principal amount of the notes due 2049 to be redeemed plus accrued and unpaid interest, if any, thereon to, but excluding, the redemption date.

Prior to August 14, 2058 (the date that is six months prior to the scheduled maturity date for the notes due 2059), we may, at our option, redeem the notes due 2059, in whole at any time or in part (equal to \$2,000 or an integral multiple of \$1,000 in excess thereof) from time to time. The redemption price will be equal to the greater of (i) 100% of the principal amount of the notes due 2059 to be redeemed and (ii) the sum of the present values of each remaining scheduled payment of principal and interest that would be due if such notes matured on August 14, 2058 (exclusive of interest accrued to the date of redemption) discounted to the redemption date, on a semiannual basis (assuming a 360-day year consisting of twelve 30-day months), at a rate equal to the applicable Treasury Rate (as defined below) plus 50 basis points plus, in either case, accrued and unpaid interest, if any, thereon to, but excluding, the redemption date.

On or after August 14, 2058 (the date that is six months prior to the scheduled maturity date of the notes due 2059), we may, at our option, redeem the notes due 2059, in whole at any time or in part (equal to \$2,000 or an integral multiple of \$1,000 in excess thereof) from time to time, at a redemption price equal to 100% of the principal amount of the notes due 2059 to be redeemed plus accrued and unpaid interest, if any, thereon to, but excluding, the redemption date.

“Comparable Treasury Issue” means the U.S. Treasury security or securities selected by an Independent Investment Banker as having an actual or interpolated maturity comparable to the remaining term of each series of notes to be redeemed that would be used, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of a comparable maturity to the remaining term of such notes assuming, for this purpose, that the notes matured on February 14, 2022 in the case of the notes due 2022, on January 14, 2024 in the case of the notes due 2024, on December 14, 2025 in the case of the notes due 2026, on November 14, 2028 in the case of the notes due 2029, on August 14, 2038 in the case of the notes due 2039, on August 14, 2048 in the case of the notes due 2049 and on August 14, 2058 in the case of the notes due 2059.

“Comparable Treasury Price” means, with respect to any redemption date (1) the average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotation or (2) if the Independent Investment Banker obtains fewer than five such Reference Treasury Dealer Quotations, the average of all such quotations.

“Independent Investment Banker” means one of the Reference Treasury Dealers appointed by us.

“Reference Treasury Dealer” means each of Barclays Capital Inc., Citigroup Global Markets Inc., J.P. Morgan Securities LLC and Mizuho Securities USA LLC, or their affiliates, which are primary United States government securities dealers and one other primary U.S. government securities dealer in New York City reasonably designated by us; provided, however, that if any of the foregoing shall cease to be a primary U.S. government securities dealer in New York City (a “Primary Treasury Dealer”), we will substitute therefor another Primary Treasury Dealer.

“Reference Treasury Dealer Quotation” means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the Independent Investment Banker, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Independent Investment Banker by such Reference Treasury Dealer at 2:00 pm New York time on the third business day preceding such redemption date.

Table of Contents

“Treasury Rate” means, with respect to any redemption date, the rate per annum equal to the semiannual equivalent yield to maturity or interpolated maturity (on a day count basis) of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (such price expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date.

Notice of any redemption will be mailed at least 15 days but not more than 45 days before the redemption date to each holder of notes to be redeemed. If money sufficient to pay the redemption price of and accrued interest on the notes to be redeemed is deposited with the trustee on or before the redemption date, on and after the redemption date interest will cease to accrue on the notes (or such portions thereof) called for redemption and such notes will cease to be outstanding. If fewer than all of the notes of any series are to be redeemed, the notes to be redeemed shall be selected by the trustee by lot, pro rata or by such method as the trustee shall deem fair and appropriate in each case in accordance with the applicable procedures of DTC.

We may at any time, and from time to time, purchase notes of any series at any price or prices in the open market or otherwise.

Repurchase Upon Change of Control Triggering Event

If a change of control triggering event occurs, unless we have exercised our option to redeem the notes of a series as described under “—Optional Redemption” above or “—Redemption for Tax Reasons” below, we will be required to make an offer (the “change of control offer”) to each holder of such notes to repurchase all or any part (equal to \$2,000 or an integral multiple of \$1,000 in excess thereof) of that holder’s notes on the terms set forth in such notes. In a change of control offer, we will be required to offer payment in cash equal to 101% of the aggregate principal amount of notes repurchased, plus accrued and unpaid interest, if any, on the notes repurchased to, but not including, the date of repurchase (a “change of control payment”).

Within 30 days following any change of control triggering event or, at our option, prior to any change of control, but after public announcement of the transaction that constitutes or may constitute the change of control, a notice will be mailed to holders of the notes describing the transaction that constitutes or may constitute the change of control triggering event and offering to repurchase such notes on the date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed (a “change of control payment date”). The notice, if mailed prior to the date of consummation of the change of control, will state that the change of control offer is conditioned on the change of control triggering event occurring on or prior to the change of control payment date.

On the change of control payment date, we will, to the extent lawful:

- accept for payment all notes or portions of notes properly tendered pursuant to the change of control offer;
- deposit with the paying agent an amount equal to the change of control payment in respect of all notes or portions of notes properly tendered; and
- deliver or cause to be delivered to the trustee the notes properly accepted together with an officers’ certificate stating the aggregate principal amount of notes or portions of notes being purchased.

The paying agent will promptly mail to each holder of properly tendered notes the change of control payment for the notes, and the trustee will promptly authenticate and mail (or cause to be transferred by book-entry) to each holder a new note equal in principal amount to any unpurchased portion of any notes surrendered; provided that each new note will be in a principal amount of \$2,000 or an integral multiple of \$1,000 in excess of that amount.

We will not be required to make a change of control offer upon the occurrence of a change of control triggering event if a third party makes such an offer at the times and otherwise in compliance with the

Table of Contents

requirements set for an offer made by us, and the third party repurchases all notes properly tendered and not withdrawn under its offer. In addition, we will not repurchase any notes if there has occurred and is continuing on the change of control payment date an event of default under the indenture, other than a default in the payment of the change of control payment upon a change of control triggering event.

To the extent that we are required to offer to repurchase the notes of a series upon the occurrence of a change of control triggering event, we may not have sufficient funds to repurchase such notes in cash at such time. In addition, our ability to repurchase the notes for cash may be limited by law or the terms of other agreements relating to our indebtedness outstanding at the time. The failure to make such repurchase would result in a default under the notes.

We will comply with the requirements of Rule 14e-1 under the Securities Exchange Act of 1934, as amended, or the Exchange Act, and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the notes as a result of a change of control triggering event. To the extent that the provisions of any such securities laws or regulations conflict with the change of control offer provisions of the notes, we will comply with those securities laws and regulations and will not be deemed to have breached our obligations under the change of control offer provisions of the notes by virtue of any such conflict.

For purposes of the change of control offer provisions of the notes, the following terms will be applicable:

“Change of control” means the occurrence of any of the following:

- (1) the direct or indirect sale, lease, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or more series of related transactions, of all or substantially all of our assets and the assets of our subsidiaries, taken as a whole, to any “person,” other than to our company or one of our subsidiaries;
- (2) the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any person becomes the beneficial owner (as defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of more than 50% of our outstanding voting stock or other voting stock into which our voting stock is reclassified, consolidated, exchanged or changed, measured by voting power rather than the number of shares;
- (3) we consolidate with, or merge with or into, any person, or any person consolidates with, or merges with or into, us, in any such event pursuant to a transaction in which any of our outstanding voting stock is converted into or exchanged for cash, securities or other property, other than any such transaction where the shares of our voting stock outstanding immediately prior to such transaction constitute, or are converted into or exchanged for, a majority of the voting stock of the surviving person or any direct or indirect parent company of the surviving person immediately after giving effect to such transaction;
- (4) the first day on which a majority of the members of our Board of Directors are not continuing directors; or
- (5) the adoption of a plan relating to our liquidation or dissolution (other than our liquidation into a newly formed holding company).

Notwithstanding the foregoing, a transaction will not be deemed to involve a change of control if (i) we become a direct or indirect wholly-owned subsidiary of a holding company and (ii) (A) the direct or indirect holders of the voting stock of such holding company immediately following that transaction are substantially the same as the holders of our voting stock immediately prior to that transaction or (B) immediately following that transaction no person (other than a holding company) is the beneficial owner, directly or indirectly, of more than 50% of the voting stock of such holding company.

The definition of “change of control” includes a phrase relating to the direct or indirect sale, lease, transfer, conveyance or other disposition of “all or substantially all” of our assets and the assets of our subsidiaries, taken

Table of Contents

as a whole. Although there is a limited body of case law interpreting the phrase “substantially all,” there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of notes to require us to repurchase its notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of our assets and the assets of our subsidiaries, taken as a whole, to another person or group may be uncertain.

“Change of control triggering event” means the occurrence of both (1) a change of control and (2) a ratings event.

“Continuing directors” means, as of any date of determination, any member of our Board of Directors who (1) was a member of such Board of Directors on the date the notes were issued or (2) was nominated for election, elected or appointed to such Board of Directors with the approval of a majority of the continuing directors who were members of such Board of Directors at the time of such nomination, election or appointment (either by a specific vote or by approval of our proxy statement in which such member was named a nominee for election as a director, without objection to such nomination).

“Fitch” means Fitch Ratings Inc., an indirect subsidiary of Hearst Corporation and Fimalac, S.A., and its successors.

“Investment grade” means a rating equal to or higher than Baa3 (or the equivalent) by Moody’s; a rating equal to or higher than BBB- (or the equivalent) by S&P or Fitch; and the equivalent investment grade credit rating from any replacement rating agency or rating agencies selected by us.

“Moody’s” means Moody’s Investors Service, Inc., a subsidiary of Moody’s Corporation, and its successors.

“Person” has the meaning given thereto in Section 13(d)(3) of the Exchange Act.

“Rating agencies” means (1) each of Moody’s, S&P and Fitch; and (2) if any of Moody’s, S&P or Fitch ceases to rate the notes or fails to make a rating of the notes publicly available for reasons outside of our control, a substitute rating agency.

“Ratings event” means the notes cease to be rated investment grade by each of the rating agencies on any day within the 60-day period (which 60-day period will be extended so long as the rating of the notes is under publicly announced consideration for a possible downgrade by any of the rating agencies) after the earlier of (1) the occurrence of a change of control and (2) public notice of the occurrence of a change of control or our intention to effect a change of control.

“S&P” means Standard & Poor’s Financial Services LLC, a division of S&P Global Inc., and its successors.

“Substitute rating agency” means a “nationally recognized statistical rating organization” within the meaning of Rule 15c3-1(c)(2)(vi)(F) under the Exchange Act selected by us (as certified by our Chief Executive Officer or Chief Financial Officer) as a replacement agency for Moody’s, S&P or Fitch, or all of them, as the case may be.

“Voting stock” means, with respect to any specified person as of any date, the capital stock of such person that is at the time entitled to vote generally in the election of the board of directors of such person.

Payment of Additional Amounts

We will, subject to the exceptions and limitations set forth below, pay to the beneficial owner of any note who is a non-United States person (as defined below) such additional amounts as may be necessary to ensure that every net payment on such note, after deduction or withholding by us or any of our paying agents for or on

Table of Contents

account of any present or future tax, assessment or other governmental charge imposed upon or as a result of such payment by the United States or any political subdivision or taxing authority of the United States, will not be less than the amount provided in such note to be then due and payable. However, we will not pay additional amounts if the beneficial owner is subject to taxation solely for reasons other than its ownership of the note, nor will we pay additional amounts for or on account of:

(a) any tax, assessment or other governmental charge that is imposed or withheld solely by reason of the existence of any present or former connection (other than the mere fact of being a beneficial owner of a note) between the beneficial owner (or between a fiduciary, settlor, beneficiary or person holding a power over such beneficial owner, if the beneficial owner is an estate or trust, or a member or shareholder of the beneficial owner, if the beneficial owner is a partnership or corporation) of a note and the United States, including, without limitation, such beneficial owner (or such fiduciary, settlor, beneficiary, person holding a power, member or shareholder) being or having been a citizen or resident of the United States or treated as being or having been a resident thereof;

(b) any tax, assessment or other governmental charge that is imposed or withheld solely by reason of the beneficial owner (or a fiduciary, settlor, beneficiary or person holding a power over such beneficial owner, if the beneficial owner is an estate or trust, or a member or shareholder of the beneficial owner, if the beneficial owner is a partnership or corporation) (1) being or having been present in, or engaged in a trade or business in, the United States, (2) being treated as having been present in, or engaged in a trade or business in, the United States, or (3) having or having had a permanent establishment in the United States;

(c) any tax, assessment or other governmental charge that is imposed or withheld solely by reason of the beneficial owner (or a fiduciary, settlor, beneficiary or person holding a power over such beneficial owner, if the beneficial owner is an estate or trust, or a member or shareholder of the beneficial owner, if the beneficial owner is a partnership or corporation) being or having been with respect to the United States a personal holding company, a controlled foreign corporation, a passive foreign investment company or a foreign private foundation or other foreign tax-exempt organization, or being a corporation that accumulates earnings to avoid United States federal income tax;

(d) any tax, assessment or other governmental charge imposed on a beneficial owner that actually or constructively owns 10% or more of the total combined voting power of all of our classes of stock that are entitled to vote within the meaning of Section 871(h)(3) of the Internal Revenue Code of 1986, as amended, or the Code;

(e) any tax, assessment or other governmental charge that is payable by any method other than withholding or deduction by us or any paying agent from payments in respect of such note;

(f) any gift, estate, inheritance, sales, transfer, personal property or excise tax or any similar tax, assessment or other governmental charge;

(g) any tax, assessment or other governmental charge required to be withheld by any paying agent from any payment in respect of any note if such payment can be made without such withholding by at least one other paying agent;

(h) any tax, assessment or other governmental charge that is imposed or withheld by reason of a change in law, regulation, or administrative or judicial interpretation that becomes effective more than 15 days after the payment becomes due or is duly provided for, whichever occurs later;

(i) any tax, assessment or other governmental charge imposed as a result of the failure of the beneficial owner to comply with applicable certification, information, documentation or other reporting requirements concerning the nationality, residence, identity or connection with the United States of the holder or beneficial owner of a note, if such compliance is required by statute or regulation of the United States as a precondition to relief or exemption from such tax, assessment or other governmental charge;

Table of Contents

(j) any tax, assessment or other governmental charge imposed by reason of the failure of the beneficial owner to fulfill the statement requirements of Section 871(h) or Section 881(c) of the Code;

(k) any tax, assessment or other governmental charge imposed pursuant to the provisions of Section 1471 through 1474 of the Code; or

(l) any combination of items (a), (b), (c), (d), (e), (f), (g), (h), (i), (j) and (k).

In addition, we will not pay additional amounts to a beneficial owner of a note that is a fiduciary, partnership, limited liability company or other fiscally transparent entity, or to a beneficial owner of a note that is not the sole beneficial owner of such note, as the case may be. This exception, however, will apply only to the extent that a beneficiary or settlor with respect to the fiduciary, or a beneficial owner or member of the partnership, limited liability company or other fiscally transparent entity, would not have been entitled to the payment of an additional amount had the beneficiary, settlor, beneficial owner or member received directly its beneficial or distributive share of the payment. The term “beneficial owner” includes any person holding a note on behalf of or for the account of a beneficial owner.

As used herein, the term “non-United States person” means a person that is not a United States person. The term “United States person” means a citizen or resident of the United States, a corporation or partnership created or organized in or under the laws of the United States or any political subdivision thereof, an estate the income of which is subject to United States federal income taxation regardless of its source, a trust subject to the primary supervision of a court within the United States and the control of one or more United States persons as described in Section 7701(a)(30) of the Code, or a trust that existed on August 20, 1996, and elected to continue its treatment as a domestic trust. “United States” means the United States of America (including the states and the District of Columbia), its territories, its possessions and other areas subject to its jurisdiction (including the Commonwealth of Puerto Rico).

Redemption for Tax Reasons

We may redeem a series of notes prior to maturity in whole, but not in part, on not more than 60 days’ notice and not less than 30 days’ notice at a redemption price equal to the principal amount of such notes plus any accrued interest and additional amounts to the date fixed for redemption if:

- as a result of a change in or amendment to the tax laws, regulations or rulings of the United States or any political subdivision or taxing authority of or in the United States or any change in official position regarding the application or interpretation of such laws, regulations or rulings (including a holding by a court of competent jurisdiction in the United States) that is announced or becomes effective on or after February 14, 2019, we have or will become obligated to pay additional amounts with respect to such series of notes as described above under “—Payment of Additional Amounts,” or
- on or after February 14, 2019, any action is taken by a taxing authority of, or any decision is rendered by a court of competent jurisdiction in, the United States or any political subdivision or taxing authority of or in the United States, including any of those actions specified in the bullet point above, whether or not such action is taken or decision is rendered with respect to us, or any change, amendment, application or interpretation is officially proposed, which, in any such case, in the written opinion of independent legal counsel of recognized standing, will result in a material probability that we will become obligated to pay additional amounts with respect to such series of notes,

and we in our business judgment determine that such obligations cannot be avoided by the use of reasonable measures available to us.

If we exercise our option to redeem a series of notes, we will deliver to the trustee a certificate signed by an authorized officer stating that we are entitled to redeem such notes and the written opinion of independent legal counsel if required.

Restrictive Covenants

The indenture limits the amount of liens (subject to certain exceptions described in “Description of Debt Securities—Restrictive Covenants—Limitations on Liens” in the attached prospectus) that we or our Subsidiaries may incur or otherwise create, in order to secure indebtedness for borrowed money, upon any Principal Facility or any shares of capital stock that any of our Subsidiaries owning any Principal Facility has issued to us or any of our Subsidiaries. If we or any of our Subsidiaries incur such liens, then we will secure the notes and, in the case of liens upon any Principal Facility owned or leased by PM USA, then PM USA will secure the guarantee of the notes to the same extent and in the same proportion as the debt that is secured by such liens. Notwithstanding the foregoing, we and/or any of our Subsidiaries may create, assume or incur liens that would otherwise be subject to the restriction described in this paragraph, without securing the notes equally and ratably, if the aggregate value of all outstanding indebtedness secured by the liens plus the value of Sale and Leaseback Transactions does not at the time exceed 5% of Consolidated Net Tangible Assets. The indenture also restricts our ability to engage in Sale and Leaseback Transactions under certain circumstances. See “Description of Debt Securities—Restrictive Covenants—Sale and Leaseback Transactions” in the attached prospectus.

At December 31, 2018, our Consolidated Net Tangible Assets were \$17.0 billion.

Book-Entry Notes

We have obtained the information in this section concerning DTC, Clearstream and Euroclear, and the book-entry system and procedures from sources that we believe to be reliable, but we take no responsibility for the accuracy of this information.

The notes will be offered and sold in principal amounts of \$2,000 and integral multiples of \$1,000 in excess thereof. We will issue the notes of each series in the form of one or more permanent global notes in fully registered, book-entry form, which we refer to as the “global notes.” Each such global note will be deposited with, or on behalf of, DTC or any successor thereto, as depository, or Depositary, and registered in the name of Cede & Co. (as nominee of DTC). Unless and until it is exchanged in whole or in part for notes in definitive form, no global note may be transferred except as a whole by the Depositary to a nominee of such Depositary. Investors may elect to hold interests in the global notes through either the Depositary (in the United States) or through Clearstream or Euroclear, if they are participants in such systems, or indirectly through organizations that are participants in such systems. Clearstream and Euroclear will hold interests on behalf of their participants through customers’ securities accounts in Clearstream’s and Euroclear’s names on the books of their respective depositaries, which in turn will hold such interests in customers’ securities accounts in the depositaries’ names on the books of DTC.

DTC advises that it is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code and a “clearing agency” registered pursuant to the provision of Section 17A of the Exchange Act. DTC holds securities that its participants, or DTC Participants, deposit with DTC. DTC also facilitates settlement of securities transactions among the DTC Participants, such as transfers and pledges in deposited securities through electronic computerized book-entry changes in accounts of the DTC Participants, thereby eliminating the need for physical movement of securities certificates.

Direct DTC Participants, or DTC Direct Participants, include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation, which is owned by the users of its regulated subsidiaries. Access to DTC’s book-entry system is also available to others, such as banks, securities brokers and dealers that clear through or maintain a custodial relationship with a DTC Direct Participant, either directly or indirectly (we refer to the latter as DTC Indirect Participants).

Table of Contents

Purchases of the notes under DTC's book-entry system must be made by or through DTC Direct Participants, which will receive a credit for the notes on the records of DTC. The ownership interest of each actual purchaser of the notes, which we refer to as the "beneficial owner," is in turn to be recorded on the DTC Participants' records. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transactions, as well as periodic statements of their holdings from the DTC Direct or DTC Indirect Participant through which the beneficial owner entered into the transaction. Transfers of ownership interests in the global notes will be effected only through entries made on the books of DTC Participants acting on behalf of beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in the global notes, except in the event that use of the book-entry system for the notes is discontinued.

Upon the issuance of a registered global note, DTC will credit, on its book-entry registration and transfer system, the DTC Participants' accounts with the respective principal or face amounts of the relevant series of notes beneficially owned by the DTC Participants. Any dealers, underwriters or agents participating in the distribution of the notes will designate the accounts to be credited. Ownership of beneficial interests in a registered global note will be shown on, and the transfer of ownership interests will be effected only through, records maintained by DTC, with respect to interests of DTC Participants, and on the records of DTC Participants, with respect to interests of persons holding through DTC Participants.

To facilitate subsequent transfers, all global notes deposited by DTC Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of the global notes with DTC and their registration in the name of Cede & Co. or such other nominee effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the notes; DTC's records reflect only the identity of the DTC Direct Participants to whose accounts such notes are credited, which may or may not be the beneficial owners. The DTC Participants will remain responsible for keeping account of their holdings on behalf of their customers.

So long as DTC, or its nominee, is the registered owner of a registered global note, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the relevant series of notes represented by the global note for all purposes under the indenture. Except as described below, owners of beneficial interests in a global note will not be entitled to have the book-entry notes represented by the notes registered in their names, will not receive or be entitled to receive physical delivery of notes in definitive form and will not be considered the owners or holders of the notes under the indenture. Accordingly, each person owning a beneficial interest in a global note must rely on the procedures of DTC for that global note and, if that person is not a DTC Participant, on the procedures of the DTC Participant through which the person owns its interest, to exercise any rights of a holder under the indenture. The laws of some jurisdictions may require that some purchasers of notes take physical delivery of these notes in definitive form. Such laws may impair the ability to own, transfer or pledge beneficial interests in a global note.

We will make payments due on the notes to Cede & Co., as nominee of DTC, in immediately available funds. DTC's practice upon receipt of any payment of principal, premium, interest or other distribution of underlying securities or other property to holders on that global note, is to immediately credit the DTC Participants' accounts in amounts proportionate to their respective beneficial interests in that global note as shown on the records of the Depository. Payments by DTC Participants to owners of beneficial interests in a global note held through DTC Participants will be governed by standing customer instructions and customary practices, as is now the case with the securities held for the accounts of customers registered in "street name," and will be the responsibility of those DTC Participants. Payment to Cede & Co. is our responsibility. Disbursement of such payments to direct participants is the responsibility of Cede & Co. Disbursement of such payments to the beneficial owners is the responsibility of DTC Direct and DTC Indirect Participants. None of Altria, the trustee or any other agent of ours or any agent of the trustee will have any responsibility or liability for any aspect of the records relating to payments made on account of beneficial ownership interests in the global notes or for maintaining, supervising or reviewing any records relating to those beneficial ownership interests.

We have been advised by Clearstream and Euroclear, respectively, as follows:

Clearstream

Clearstream advises that it is incorporated under the laws of Luxembourg as a professional depository. Clearstream holds securities for its participating organizations, or Clearstream Participants, and facilitates the clearance and settlement of securities transactions between Clearstream Participants through electronic book-entry changes in accounts of Clearstream Participants, thereby eliminating the need for physical movement of certificates. Clearstream, Luxembourg provides to Clearstream Participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. As a professional depository, Clearstream is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector (*Commission de Surveillance du Secteur Financier*). Clearstream Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations and may include the underwriters. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies, that clear through or maintain a custodial relationship with a Clearstream Participant, either directly or indirectly.

Distributions with respect to interests in the global notes held beneficially through Clearstream will be credited to cash accounts of Clearstream Participants in accordance with its rules and procedures, to the extent received by the U.S. depository for Clearstream.

Euroclear

Euroclear advises that it was created in 1968 to hold securities for participants of Euroclear, or Euroclear Participants, and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several countries.

Euroclear is operated by Euroclear Bank SA/NV, or the Euroclear Operator. All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

The Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, or the Euroclear Terms and Conditions, and applicable Belgian law govern securities clearance accounts and cash accounts with the Euroclear Operator. Specifically, these terms and conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear, and receipt of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the terms and conditions only on behalf of Euroclear Participants, and has no record of or relationship with persons holding securities through Euroclear Participants.

Distributions with respect to interests in the global notes held beneficially through Euroclear will be credited to the cash accounts of Euroclear Participants in accordance with the Euroclear Terms and Conditions, to the extent received by the U.S. depository for Euroclear.

Global Clearance and Settlement Procedures

Initial settlement for the notes will be made in immediately available funds. Secondary market trading between the participants in the Depository will occur in the ordinary way in accordance with the Depository's

rules and will be settled in immediately available funds using DTC's Same-Day Funds Settlement System. Secondary market trading between Clearstream Participants and/or Euroclear Participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream and Euroclear and will be settled using the procedures applicable to conventional Eurobonds in immediately available funds.

Cross-market transfers between persons holding directly or indirectly through DTC on the one hand, and directly or indirectly through Clearstream or Euroclear Participants, on the other, will be effected in DTC in accordance with the DTC rules on behalf of the relevant European international clearing system by its U.S. depository; however, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (European time). The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. depository to take action to effect final settlement on its behalf by delivering interests in the notes to or receiving interests in the notes from DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Clearstream Participants and Euroclear Participants may not deliver instructions directly to DTC.

Because of time-zone differences, credits of interests in the notes received in Clearstream or Euroclear as a result of a transaction with a Depository Participant will be made during subsequent securities settlement processing and will be credited the business day following the DTC settlement date. Such credits or any transactions involving interests in such notes settled during such processing will be reported to the relevant Euroclear or Clearstream Participants on such business day. Cash received in Clearstream or Euroclear as a result of sales of interests in the notes by or through a Clearstream Participant or a Euroclear Participant to a Depository Participant will be received with value on the DTC settlement date but will be available in the relevant Clearstream or Euroclear cash account only as of the business day following settlement in DTC.

DTC, Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of the notes among participants of DTC, Clearstream and Euroclear. However, they are under no obligation to perform or continue to perform those procedures, and they may discontinue those procedures at any time.

Notices

Notices to holders of the notes will be sent by first class mail, postage prepaid, to the registered holders at the physical addresses as they appear in the security registrar for the notes.

Trustee, Paying Agent and Security Registrar

Deutsche Bank Trust Company Americas, as trustee under the indenture, will also be the paying agent and security registrar with respect to the notes.

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following summary describes generally the material United States federal income and, in the case of non-United States Holders (as defined below), estate tax considerations with respect to your acquisition, ownership and disposition of a note if you are a beneficial owner of such note. Unless otherwise indicated, this summary addresses only notes purchased pursuant to this offering for their original offering price, and held by beneficial owners as capital assets, and does not address all of the United States federal income and estate tax considerations that may be relevant to you in light of your particular circumstances or if you are subject to special treatment under United States federal income tax laws (for example, if you are an insurance company, tax-exempt organization, financial institution, broker or dealer in securities or currencies, trader in securities that elects to use the mark-to-market method of accounting for your securities holdings, person subject to the alternative minimum tax, United States expatriate, United States person with a functional currency other than the U.S. dollar, person that holds notes as part of an integrated investment (including a “straddle”), “controlled foreign corporation,” “passive foreign investment company,” persons required to accelerate the recognition of gross income with respect to the notes as a result of such income being recognized on an applicable financial statement, or corporation that accumulates earnings to avoid United States federal income tax). If a partnership holds notes, the tax treatment of a partner generally will depend upon the status of the partner and the activities of the partnership. A partner of a partnership holding our notes should consult its own tax advisor regarding the tax consequences of the acquisition, ownership and disposition of our notes, as this summary does not address special tax considerations that may be relevant to such a partner. This summary does not discuss any aspect of state, local or non-United States taxation, or any United States federal tax considerations other than income and estate taxation.

This summary is based on current provisions of the Code, Treasury Regulations, judicial opinions, published positions of the United States Internal Revenue Service, or the IRS, and all other applicable authorities, all of which are subject to change, possibly with retroactive effect. This summary is not intended as tax advice.

We urge prospective investors in notes to consult their tax advisors regarding the United States federal, state, local and non-United States income and other tax considerations of acquiring, holding and disposing of notes.

United States Holders

This discussion applies to you if you are a “United States Holder.” For this purpose, a “United States Holder” is a beneficial owner of a note that is:

- a citizen or individual resident of the United States;
- a corporation, or other entity treated as a corporation for United States federal income tax purposes, created or organized in, or under, the laws of, the United States or any political subdivision of the United States;
- an estate, the income of which is subject to United States federal income taxation regardless of its source;
- a trust, if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons have the authority to control all substantial decisions of the trust; or
- a trust that existed on August 20, 1996, and elected to continue its treatment as a domestic trust.

Payments of Interest

Payments of interest on a note generally will be taxable to you as ordinary interest income at the time the interest accrues or is received, in accordance with your method of accounting for tax purposes.

Sale, Exchange, Redemption or Disposition of a Note

Upon the sale, exchange, redemption or other taxable disposition of a note, you will recognize gain or loss attributable to the difference between the amount you realize on such sale, exchange, redemption or other taxable disposition of the note (other than amounts, if any, attributable to accrued but unpaid stated interest) and your adjusted tax basis in the note. Your adjusted tax basis in a note generally will equal the cost of the note to you on the date of acquisition.

Gain or loss realized upon the sale, exchange, redemption or other taxable disposition of a note generally will be capital gain or loss and will be long-term capital gain or loss if, at the time of the sale, exchange, redemption or other taxable disposition, you have held the note for more than one year. The maximum tax rate on ordinary income for taxpayers that are individuals, estates or trusts currently is higher than the maximum tax rate on long-term capital gains of such persons. The distinction between capital gain or loss and ordinary income or loss also is relevant for purposes of the limitation on the deductibility of capital losses.

Backup Withholding and Information Reporting

Unless you are an exempt recipient, a backup withholding tax and certain information reporting requirements may apply to payments we make to you of principal of and interest or premium (if any) on, and proceeds of the sale or exchange before maturity of, a note. Backup withholding and information reporting will not apply to payments that we make on the notes to exempt recipients that establish their status as such, regardless of whether such entities are the beneficial owners of such notes or hold such notes as a custodian, nominee or agent of the beneficial owner. However, with respect to payments made to a custodian, nominee or agent of the beneficial owner, backup withholding and information reporting may apply to payments made by such custodian, nominee or other agent to you unless you are an exempt recipient and establish your status as such.

If you are not an exempt recipient, backup withholding will not be applicable to payments made to you if you:

- have supplied an accurate Taxpayer Identification Number (usually on an IRS Form W-9);
- have not been notified by the IRS that you have failed to properly report payments of interest and dividends; and
- in certain circumstances, have certified under penalties of perjury that you have received no such notification and have supplied an accurate Taxpayer Identification Number.

However, information reporting to the IRS will be required in such a case.

Any amounts withheld from a payment to you by operation of the backup withholding rules will be refunded or allowed as a credit against your United States federal income tax liability, provided that any required information is furnished to the IRS in a timely manner.

Unearned Income Medicare Contribution

A tax of 3.8% is imposed on certain “net investment income” (or “undistributed net investment income”, in the case of estates and trusts) received by taxpayers with adjusted gross income above certain threshold amounts. “Net investment income” as defined for United States federal Medicare contribution purposes generally includes interest payments and gain recognized from the sale or other disposition of the notes. Tax-exempt trusts, which are not subject to income taxes generally, and foreign individuals will not be subject to this tax. United States Holders should consult their own tax advisors regarding the effect, if any, of this tax on their ownership and disposition of the notes.

Non-United States Holders

This discussion applies to you if you are a “non-United States Holder.” A “non-United States Holder” is a beneficial owner of a note that is neither a United States Holder nor a partnership (or other entity treated as a partnership for United States federal income tax purposes).

Payments of Interest

If you are a non-United States Holder of notes, payments of interest that we make to you will be subject to United States withholding tax at a rate of 30% of the gross amount, unless you are eligible for one of the exceptions described below.

Subject to the discussion of backup withholding and FATCA below, no withholding of United States federal income tax will be required with respect to payments we make to you of interest provided that:

- you do not actually or constructively own 10% or more of the total combined voting power of all classes of our stock entitled to vote within the meaning of Section 871(h)(3) of the Code;
- you are not a controlled foreign corporation that is related to us through stock ownership; and
- you have provided the required certifications as set forth in Section 871(h) and Section 881(c) of the Code.

To satisfy these certification requirements, you generally will be required to provide, prior to a payment of interest, a statement that:

- is signed by you under penalties of perjury;
- certifies that you are the beneficial owner and are not a United States Holder; and
- provides your name and address.

This statement generally may be made on an IRS Form W-8BEN or IRS Form W-8BEN-E or a substantially similar substitute form and you must inform the recipient of any change in the information on the statement within 30 days of such change. Special certification rules apply to non-United States Holders that are pass-through entities rather than corporations or individuals.

If you are engaged in a United States trade or business and interest received by you on a note is effectively connected with your conduct of such trade or business (and, under certain income tax treaties, is attributable to a United States permanent establishment you maintain), you will be exempt from the withholding of United States federal income tax described above, so long as you have provided an IRS Form W-8ECI or substantially similar substitute form stating that interest on the note is effectively connected with your conduct of a trade or business in the United States. In such a case, you will be subject to tax on interest you receive on a net income basis in the same manner as if you were a United States Holder. If you are a corporation, effectively connected income may also be subject to a branch profits tax at a rate of 30% (or such lower rate as may be specified by an applicable income tax treaty).

If you are not eligible for relief under one of the exceptions described above, you may nonetheless qualify for an exemption from, or a reduced rate of, United States federal withholding tax under a United States income tax treaty. In general, this exemption from, or reduced rate of, tax applies only if you provide a properly completed IRS Form W-8BEN or IRS Form W-8BEN-E or substantially similar form claiming benefits under an applicable income tax treaty.

Sale, Exchange, Redemption or Disposition of Notes

You generally will not be subject to United States federal income tax on any gain realized upon your sale, exchange, redemption or other taxable disposition of notes unless:

- the gain is effectively connected with your conduct of a trade or business within the United States (and, under certain income tax treaties, is attributable to a United States permanent establishment you maintain); or
- you are an individual, you hold your notes as capital assets, you are present in the United States for 183 days or more in the taxable year of disposition and you meet other conditions, and you are not eligible for relief under an applicable income tax treaty.

Gain that is effectively connected with your conduct of a trade or business within the United States generally will be subject to United States federal income tax, net of certain deductions, at the same rates applicable to United States persons. If you are a corporation, the branch profits tax also may apply to such effectively connected gain. If the gain from the sale or disposition of your notes is effectively connected with your conduct of a trade or business in the United States but under an applicable income tax treaty is not attributable to a permanent establishment you maintain in the United States, your gain may be exempt from United States tax under the treaty. If you are described in the second bullet point above, you generally will be subject to United States tax at a rate of 30% on the gain realized, although the gain may be offset by some United States source capital losses realized during the same taxable year.

Backup Withholding and Information Reporting

The amount of interest we pay to you on notes will be reported to you and to the IRS annually on an IRS Form 1042-S even if you are exempt from the 30% withholding tax described above. Copies of the information returns reporting those payments and the amounts withheld may also be made available to the tax authorities in the country where you are resident under provisions of an applicable tax treaty or agreement.

In addition, backup withholding tax and certain other information reporting requirements may apply to payments we make to you of principal of and interest or premium (if any) on, and proceeds of your sale or exchange before maturity of, a note. Backup withholding and the additional information reporting will not apply to payments we make to you if you have provided under penalties of perjury the required certification of your non-United States Holder status as discussed above (and the applicable withholding agent does not have actual knowledge or reason to know that you are a United States Holder) or if you are an exempt recipient.

If you sell or redeem a note through a United States broker or the United States office of a foreign broker, the proceeds from such sale or redemption will be subject to information reporting, and backup withholding will be required, unless you provide a withholding certificate or other appropriate documentary evidence establishing that you are not a United States Holder to the broker and such broker does not have actual knowledge or reason to know that you are a United States Holder, or you are an exempt recipient eligible for an exemption from information reporting and backup withholding. If you sell or redeem a note through the foreign office of a broker who is a United States person or has certain enumerated connections with the United States, the proceeds from such sale or redemption will be subject to information reporting unless you provide to such broker a withholding certificate or other documentary evidence establishing that you are not a United States Holder and such broker does not have actual knowledge or reason to know that such evidence is false, or you are an exempt recipient eligible for an exemption from information reporting. In circumstances where information reporting by the foreign office of such a broker is required, backup withholding will be required only if the broker has actual knowledge that you are a United States Holder.

Any amounts withheld from a payment to you by operation of the backup withholding rules will be refunded or allowed as a credit against your United States federal income tax liability, if any, provided that you timely file a United States federal income tax return with the IRS claiming such refund or credit.

Estate Tax

A note held by an individual who at the time of death is a non-United States Holder will not be subject to United States federal estate tax as a result of such individual's death, provided that such individual does not actually or constructively own 10% or more of the total combined voting power of all classes of our stock entitled to vote within the meaning of Section 871(h)(3) of the Code and provided that the interest payments with respect to such note are not effectively connected with such individual's conduct of a United States trade or business.

Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the Code (commonly known as FATCA) may impose a 30% withholding tax on payments of any interest income on the notes, and gross proceeds from the disposition of the notes, to certain non-U.S. entities (whether such non-U.S. entities are beneficial owners or intermediaries), including certain foreign financial institutions and investment funds, unless such non-U.S. entity complies with certain specified information reporting and other requirements, including reporting requirements regarding its United States account holders (in the case of foreign financial institutions) or beneficial United States owners (in the case of non-financial foreign entities). Under proposed regulations promulgated by the Treasury Department on December 13, 2018, which state that taxpayers may rely on the proposed regulations until final regulations are issued, FATCA withholding does not apply to payments of gross proceeds from a disposition of a debt instrument. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States with respect to FATCA may be subject to different rules. In addition, under certain circumstances, a non-United States Holder might be eligible for refunds or credits of any taxes imposed pursuant to FATCA. Prospective purchasers of the notes should consult their own tax advisors regarding these withholding and reporting provisions.

We have been advised by the underwriters that the underwriters propose initially to offer the notes to the public at the public offering prices set forth on the cover page of this prospectus supplement and may offer the notes to certain dealers at the public offering prices less concessions not in excess of 0.300%, in the case of the 2022 notes, not in excess of 0.350%, in the case of the 2024 notes, not in excess of 0.400%, in the case of the 2026 notes, not in excess of 0.400%, in the case of the 2029 notes, not in excess of 0.450%, in the case of the 2039 notes, not in excess of 0.500%, in the case of the 2049 notes, and not in excess of 0.600%, in the case of the 2059 notes. In connection with the offering of the notes, Barclays Capital Inc., Citigroup Global Markets Inc., J.P. Morgan Securities LLC and Mizuho Securities USA LLC or their respective affiliates may purchase and sell each series of notes in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the stabilizing underwriters of a greater number of notes than they are required to purchase in the offering. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the notes while the offering is in progress.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the other underwriters a portion of the underwriting discount received by it because the representatives have repurchased notes sold by or for the account of such underwriter in stabilizing or short covering transactions.

Any of these activities may cause the price of each series of notes to be higher than the price that otherwise would exist in the open market in the absence of such transactions. These transactions may be effected in the over-the-counter market or otherwise and, if commenced, may be discontinued at any time. Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of each series of notes. In addition, neither we nor any of the underwriters make any representation that any of the underwriters will engage in such transactions, or that such transactions, once begun, will not be discontinued without notice.

We estimate that our total expenses of this offering, excluding underwriting discounts, will be approximately \$2 million.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities.

Certain of the underwriters and their affiliates have performed certain investment banking, advisory or general financing and banking services for us and our affiliates from time to time, for which they have received customary fees and expenses. Certain of the underwriters and their affiliates may, from time to time, engage in transactions with and perform services for us and our affiliates in the ordinary course of their business. The representatives or their affiliates and certain of the other underwriters or their affiliates have been or are lenders in connection with our credit facility or dealers in connection with our commercial paper program, and an affiliate of one of the representatives will be the trustee, paying agent and security registrar with respect to the notes. These companies receive standard fees for their services.

In addition, affiliates of some of the underwriters are lenders under the Term Loan Agreement, including JPMorgan Chase Bank, N.A., as administrative agent, and, therefore, may receive a portion of the offering proceeds. Certain affiliates of the underwriters will receive at least 5% of the net proceeds of this offering in connection with the repayment of our outstanding amounts under the Term Loan Agreement. Proceeds.” Accordingly, this offering is being made in compliance with the requirements of FINRA Rule 5121. In accordance with that rule, no “qualified independent underwriter” is required because the securities will be rated investment grade. Such underwriters will not confirm sales to discretionary accounts without the prior written approval of the customer.

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of the issuer. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Any underwriter that is not a broker-dealer registered with the SEC will only make sales of notes in the United States through one or more SEC registered broker-dealers in compliance with applicable securities laws and the rules of the Financial Industry Regulatory Authority, Inc.

It is expected that delivery of the notes will be made against payment therefor on or about February 14, 2019, which is the second business day following the date of this prospectus supplement (such settlement cycle being referred to as T+2).

The notes are new issues of securities with no established trading market. We do not intend to list the notes on any securities exchange or to include them in any automated quotation system. We cannot assure you that the notes will have a liquid trading market. We have been advised by the underwriters that they intend to make a market in the notes, but they are not obligated to do so and may discontinue such market-making at any time without notice.

FORWARD-LOOKING AND CAUTIONARY STATEMENTS

Some of the information included or incorporated by reference in this prospectus and the applicable prospectus supplement contains forward-looking statements. You can identify these forward-looking statements by use of words such as “strategy,” “expects,” “continues,” “plans,” “anticipates,” “believes,” “will,” “estimates,” “forecasts,” “intends,” “projects,” “goals,” “objectives,” “guidance,” “targets” and other words of similar meaning. You can also identify them by the fact that they do not relate strictly to historical or current facts.

We cannot guarantee that any forward-looking statement will be realized, although we believe we have been prudent in our plans, estimates and assumptions. Achievement of future results is subject to risks, uncertainties and assumptions that may prove to be inaccurate. Should known or unknown risks or uncertainties materialize, or should underlying estimates or assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. You should bear this in mind as you consider forward-looking statements and whether to invest in or remain invested in our securities. In connection with the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995, we are identifying important factors in the documents incorporated by reference that, individually or in the aggregate, could cause actual results and outcomes to differ materially from those contained in, or implied by, any forward-looking statements made by us; any such statement is qualified by reference to these cautionary statements. We elaborate on these and other risks we face in the documents incorporated by reference. You should understand that it is not possible to predict or identify all risk factors. Consequently, you should not consider risks discussed in the documents incorporated by reference to be a complete discussion of all potential risks or uncertainties. We do not undertake to update any forward-looking statement that we may make from time to time except as required by applicable law.

PM USA was incorporated in Virginia in 1919. Its principal executive offices are located at 6601 West Broad Street, Richmond, Virginia 23230 and its telephone number is (804) 274-2000.

Other

We are a legal entity separate and distinct from our subsidiaries. Accordingly, our right, and thus the right of our creditors and shareholders, to participate in any distribution of the assets or earnings of any subsidiary is subject to the prior claims of creditors of such subsidiary, except to the extent that claims of our company itself as a creditor may be recognized. Because we are a holding company, our access to the operating cash flows of our wholly-owned subsidiaries, including funds to make payment on the debt securities, consists of cash received from our subsidiaries through the payment of dividends and distributions, and the payment of interest on intercompany loans. In addition, we receive cash dividends on our interest in AB InBev if and when AB InBev pays such dividends. Our subsidiaries have no obligation to pay any amounts due pursuant to the debt securities, other than PM USA through its guarantees, if any, of the debt securities. Our principal wholly-owned subsidiaries currently are not limited by long-term debt or other agreements in their ability to pay cash dividends or make other distributions with respect to their equity interests.

RISK FACTORS

Our business is subject to uncertainties and risks. You should carefully consider and evaluate all of the information included and incorporated by reference in this prospectus, including the risk factors incorporated by reference from our most recent annual report on Form 10-K and subsequent quarterly reports on Form 10-Q, as well as any risk factors we may describe in any subsequent periodic reports or information we file with the SEC. It is possible that our business, financial condition, liquidity or results of operations could be materially adversely affected by any of these risks.

USE OF PROCEEDS

Unless we otherwise state in the applicable prospectus supplement, we intend to use the net proceeds from the sale of the debt securities and debt warrants and the net proceeds, if any, from the exercise of debt warrants, for general corporate purposes. General corporate purposes may include repayment of debt, additions to working capital, capital expenditures, investments in our subsidiaries, possible acquisitions and the repurchase, redemption or retirement of securities, including shares of our common stock. The net proceeds may be temporarily invested or applied to repay short-term or revolving debt prior to use.

We expect to issue long-term and short-term debt from time to time. The nature and amount of our long-term and short-term debt and the proportionate amount of each can be expected to vary from time to time as a result of business requirements, market conditions and other factors.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our historical ratios of earnings available for fixed charges to fixed charges for the periods indicated. Earnings available for fixed charges represent earnings from continuing operations before income taxes, including interest capitalized and distributed income of our less than 50% owned affiliates, but excluding fixed charges, amortization of capitalized interest and undistributed earnings of our less than 50% owned affiliates. Fixed charges represent interest expense, amortization of debt discount and expenses, and capitalized interest, plus that portion of rental expense estimated to be the equivalent of interest. This information should be read in conjunction with the consolidated financial statements and the accompanying notes incorporated by reference in this prospectus.

	Nine Months Ended September 30, 2017	Year Ended December 31,				
	2017	2016	2015	2014	2013	2012
Ratio of earnings to fixed charges(a)(b)	15.0	29.4	10.5	9.2	6.8	5.8

(a) We include interest relating to uncertain tax positions in our provision for income taxes, therefore such amounts are not included in fixed charges in the computation.

(b) The ratio of earnings to fixed charges for the year ended December 31, 2016 includes the pre-tax gain of approximately \$13.9 billion as a result of the AB InBev/SABMiller plc business combination. Excluding this gain, the ratio of earnings to fixed charges would have been 11.3 for the year ended December 31, 2016.

DESCRIPTION OF DEBT SECURITIES

The debt securities covered by this prospectus will be our direct unsecured obligations. The debt securities will be issued in one or more series under an indenture, dated as of November 4, 2008, among us, PM USA and Deutsche Bank Trust Company Americas, as trustee.

This prospectus briefly describes the material indenture provisions. Those descriptions are qualified in all respects by reference to the actual text of the indenture. For your reference, in the summary that follows, we have included references to section numbers of the indenture so that you can more easily locate these provisions. In cases where portions of the summary are taken from more than one section of the indenture, we have referred only to the section of the indenture that is principally applicable to that part of the summary. The indenture is listed as an exhibit to the registration statement of which this prospectus is a part. See "Where You Can Find More Information" for information on how to obtain a copy. You should also refer to the Trust Indenture Act of 1939, or the Trust Indenture Act, certain terms of which are made part of the indenture by reference.

The material financial, legal and other terms particular to debt securities of each series will be described in the prospectus supplement relating to the debt securities of that series. The prospectus supplement relating to the debt securities of the series will be attached to the front of this prospectus. The following briefly summarizes the material provisions of the indenture and the debt securities, other than pricing and related terms that will be disclosed in an accompanying prospectus supplement. The prospectus supplement will also state whether any of the terms summarized below do not apply to the series of debt securities being offered. You should read the more

[Table of Contents](#)

detailed provisions of the indenture, including the defined terms, for provisions that may be important to you. You should also read the particular terms of a series of debt securities, which will be described in more detail in the applicable prospectus supplement.

Prospective purchasers of debt securities should be aware that special United States federal income tax, accounting and other considerations not addressed in this prospectus may be applicable to instruments such as the debt securities. The prospectus supplement relating to an issue of debt securities will describe these considerations, if they apply.

Capitalized terms used below are defined under "Defined Terms." In this "Description of Debt Securities" section, references to "we," "us" and "our" are only to Altria Group, Inc. and not its subsidiaries.

General

The debt securities will rank equally with all of our other unsecured and unsubordinated debt. The indenture does not limit the amount of debt we may issue under the indenture and provides that additional debt securities may be issued up to the aggregate principal amount authorized by a board resolution. In addition, the indenture does not limit our ability or the ability of our subsidiaries to incur additional debt. We may issue the debt securities from time to time in one or more series with the same or various maturities, at par, at a discount or at a premium. The prospectus supplement relating to any debt securities being offered will include specific terms relating to the offering, including the particular amount, price and other terms of those debt securities. These terms will include some or all of the following:

- the title of the debt securities;
- any limit upon the aggregate principal amount of the debt securities;
- the date or dates on which the principal of the debt securities will be payable or their manner of determination;
- if the debt securities will bear interest:

 - the date or dates from which any interest will accrue;
 - the interest payment dates for the debt securities; and

- currency or currency units in which the debt securities will be denominated and payable, if other than U.S. dollars;
- whether the amounts of payments of principal of, and any premium and interest on, the debt securities are to be determined with reference to an index, formula or other method, and if so, the manner in which such amounts will be determined;
- whether the debt securities will be issued in whole or in part in the form of global debt securities and, if so, the depositary, if any, for the global debt securities, whether permanent or temporary (including the circumstances under which any temporary global debt securities may be exchanged for definitive debt securities);
- whether the debt securities will be convertible or exchangeable into other of our or another company's securities and the terms and conditions of any such conversion or exchange;
- whether debt securities will be guaranteed by PM USA, and if so, the terms and conditions of such guarantee;
- any special tax implications of the debt securities, including whether and under what circumstances, if any, we will pay additional amounts under any debt securities held by a person who is not a United States person for tax payments, assessments or other governmental charges and whether we have the option to redeem the debt securities which are affected by the additional amounts instead of paying the additional amounts;
- the form of the debt securities;
- whether and to what extent the debt securities are subject to defeasance on terms different from those described under the heading "Defeasance;"
- if the debt securities bear no interest, any dates on which lists of holders of these debt securities must be provided to the trustee;
- any addition to, or modification or deletion of, any event of default or any covenant specified in the indenture; and
- any other specific terms of the debt securities. (Section 301)

We may issue debt securities as OID debt securities. OID debt securities bear no interest or bear interest at below-market rates and are sold at a discount below their stated principal amount. If we issue OID debt securities, the prospectus supplement will contain the issue price of the debt securities and the rate at which and the date from which the discount will accrete.

We may also issue indexed debt securities. Payments of principal of, and any premium and interest on, indexed debt securities are determined with reference to the rate of exchange between the currency or currency unit in which the debt security is denominated and any other currency or currency unit specified by us, to the relationship between two or more currencies or currency units, to the price of one or more specified securities or commodities, to one or more securities or commodities exchange indices or other indices or by other similar methods or formulas, all as specified in the prospectus supplement.

We may issue debt securities other than the debt securities described in this prospectus. There is no requirement that any other debt securities that we issue be issued under the indenture. Thus, any other debt securities that we issue may be issued under other indentures or documentation containing provisions different from those included in the indenture or applicable to one or more issues of the debt securities described in this prospectus. (Section 301)

Guarantee

If the applicable prospectus supplement relating to a series of debt securities provides that those debt securities will have the benefit of the guarantee by PM USA, payment of the principal, premium, if any, and interest on those debt securities will be guaranteed on an unsecured, unsubordinated basis by PM USA. The guarantee of debt securities will rank equally in right of payment with all of the unsecured and unsubordinated indebtedness of PM USA. See “Description of Guarantees of Debt Securities” below.

Consolidation, Merger or Sale

Under the indenture, neither we nor PM USA may consolidate with or merge into any other corporation or convey or transfer our respective properties and assets substantially as an entirety to any person unless:

- the corporation formed by such consolidation or into which we or PM USA, as applicable, are merged or the person which acquires by conveyance or transfer our or PM USA’s, as applicable, properties and assets substantially as an entirety is a corporation organized and existing under the laws of the United States, any state thereof or the District of Columbia and expressly assumes, by a supplemental indenture, payment of the principal of and any premium and interest (including any additional amounts payable) on all the debt securities and the performance of every covenant of the indenture, or the guarantee of any series of debt securities, on the part of us or PM USA, as the case may be, to be performed;
- after giving effect to the transaction, no Event of Default with respect to any series of debt securities, and no event which, after notice or lapse of time or both, would become an Event of Default, will have happened and be continuing;
- the successor corporation assuming the debt securities agrees, by supplemental indenture, to indemnify the individuals liable therefor for the amount of United States federal estate tax paid solely as a result of such assumption in respect of debt securities held by individuals who are not citizens or residents of the United States at the time of their death; and
- we or PM USA, as the case may be, deliver to the trustee an officers’ certificate and an opinion of counsel, each stating that the consolidation, merger, conveyance or transfer and the supplemental indenture comply with these provisions. (Section 801)

The successor corporation will assume all of our or PM USA’s, as applicable, obligations under the indenture and, in the case of PM USA, any guarantee agreement relating to any outstanding debt securities that are guaranteed by PM USA, as if such successor were an original party to the indenture or such guarantee. After assuming such obligations, the successor corporation will have all of our or PM USA’s, as applicable, rights and powers under the indenture or such guarantee. (Section 802)

Waivers Under the Indenture

Under the indenture, the holders of more than 50% in principal amount of the outstanding debt securities of any particular series, may on behalf of the holders of all the debt securities of that series:

- waive our compliance with certain covenants of the indenture; and (Section 1009)
- waive any past default under the indenture, except:
 - a default in the payment of the principal of, or any premium or interest on, any debt securities of that series; and
 - a default with respect to a covenant or provision of the indenture which itself cannot be modified or amended without the consent of the holder of each affected debt security of that series. (Section 513)

Events of Default

When we use the term “Event of Default” in the indenture with respect to a particular series of debt securities, we mean any of the following:

- we fail to pay any installment of interest on any debt security of that series for 30 days after payment was due;
- we fail to make payment of the principal of, or any premium on, any debt security of that series when due;
- we fail to make any sinking fund payment when due with respect to debt securities of that series;
- we fail to perform, or breach, any other covenant or warranty in respect of any debt security of that series contained in the indenture or in such debt securities or in the applicable board resolution under which such series is issued and this failure or breach continues for 90 days after we receive written notice of it from the trustee or holders of at least 25% in principal amount of the outstanding debt securities of that series;
- we or a court take certain actions relating to bankruptcy, insolvency or reorganization of our company; or
- any other event of default that may be specified for the debt securities of the series or in the board resolution with respect to the debt securities of that series. (Section 501)

The supplemental indenture or the form of security for a particular series of debt securities may include additional Events of Default or changes to the Events of Default described above. The Events of Default applicable to a particular series of debt securities will be described in the prospectus supplement relating to such series.

A default with respect to a single series of debt securities under the indenture will not necessarily constitute a default with respect to any other series of debt securities issued under the indenture. A default under our other indebtedness will not be a default under the indenture. The trustee may withhold notice to the holders of debt securities of any default, except for defaults that involve our failure to pay principal or any premium or interest, if it determines in good faith that the withholding of notice is in the interest of the holders. (Section 602)

If an Event of Default for any series of debt securities occurs and continues (other than an Event of Default involving our bankruptcy, insolvency or reorganization), either the trustee or the holders of not less than 25% in principal amount of the outstanding debt securities of that series may require us upon notice in writing to us, to repay immediately the entire principal (or, in the case of (a) OID debt securities, a lesser amount as may be provided in those OID debt securities or (b) indexed debt securities, an amount determined by the terms of those indexed debt securities), of all the debt securities of such series together with accrued interest on the debt securities.

If an Event of Default occurs that involves our bankruptcy, insolvency or reorganization, then all unpaid principal amounts (or, if the debt securities are (a) OID debt securities, a lesser amount as may be provided in those OID debt securities or (b) indexed debt securities, an amount determined by the terms of those indexed debt securities) of all the debt securities of such series together with accrued interest on the debt securities and accrued interest on all debt securities of each series then outstanding will immediately become due and payable, without any action by the trustee or any holder of debt securities. (Section 502)

Subject to certain conditions, the holders of a majority in principal amount of the outstanding debt securities of a series may rescind a declaration of acceleration if all Events of Default, other than the failure to pay principal or interest due solely because of the declaration of acceleration, have been cured or waived. (Section 502)

Other than its duties in case of an Event of Default, the trustee is not obligated to exercise any of its rights or powers under the indenture at the request, order or direction of any holders, unless the holders offer the

Table of Contents

trustee indemnity satisfactory to it. (Section 507) The holders of a majority in principal amount outstanding of any series of debt securities may, subject to certain limitations, direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any power conferred upon the trustee, for any series of debt securities. (Section 512)

The indenture requires us to file each year with the trustee, an officer's certificate that states that:

- the signing officer has supervised a review of our activities during such year and performance under the indenture; and
- to the best of his or her knowledge, based on the review, we comply with all conditions and covenants of the indenture. (Section 1005)

A judgment for money damages by courts in the United States, including a money judgment based on an obligation expressed in a foreign currency, will ordinarily be rendered only in U.S. dollars. New York statutory law provides that a court shall render a judgment or decree in the foreign currency of the underlying obligation and that the judgment or decree shall be converted into U.S. dollars at the exchange rate prevailing on the date of entry of the judgment or decree. If a court requires a conversion to be made on a date other than a judgment date, the indenture requires us to pay additional amounts necessary to ensure that the amount paid in U.S. dollars to a holder is equal to the amount due in such foreign currency or currency unit. (Section 515)

Notwithstanding the foregoing, the indenture provides that, to the extent elected by us, the sole remedy for an Event of Default relating to the failure to comply with the reporting obligations in the indenture will, for the first 120 days after the occurrence of such an Event of Default, consist exclusively of the right for holders of each series of debt securities with respect to which we elect to pay additional interest to receive additional interest on the debt securities of that particular series at an annual rate equal to 0.25% of the principal amount of the debt securities of such series. If we so elect, this additional interest will accrue on all outstanding debt securities with respect to which we elect to pay additional interest from and including the date on which the Event of Default relating to the failure to comply with the reporting obligations in the indenture first occurs to but not including the 120th day thereafter (or such earlier date on which such Event of Default is cured or waived by holders as provided above). On such 120th day (or earlier, if the Event of Default relating to the reporting obligations under the indenture is cured or waived by holders as provided above prior to such 120th day), the additional interest will cease to accrue and, if the Event of Default relating to reporting obligations under the indenture has not been cured or waived prior to such 120th day, the debt securities will be subject to acceleration as provided above. The provisions of the indenture described in this paragraph will not affect the rights of holders of debt securities in the event of the occurrence of any other Event of Default. If we do not elect to pay the additional interest upon an Event of Default in accordance with this paragraph, the debt securities will be subject to acceleration as provided above.

In order to elect to pay the additional interest on the debt securities in accordance with the immediately preceding paragraph, we must notify all holders of debt securities of such series and the trustee and paying agent of such election on or before the close of business on the date on which such Event of Default first occurs. (Section 502)

Payment and Transfer

We will pay the principal of, and any premium and interest on, debt securities at the place or places that we will designate for such purposes. We will make payment to the persons in whose names the debt securities are registered on the close of business on the day or days that we will specify in accordance with the indenture. We will pay the principal of, and any premium on, debt securities only against surrender of those debt securities. Any other payments will be made as set forth in the applicable prospectus supplement. Holders may transfer or exchange debt securities at the corporate trust office of the trustee or at any other office or agency, maintained for such purposes, without the payment of any service charge except for any tax or governmental charge. (Section 307)

Restrictive Covenants

The indenture includes the following restrictive covenants:

Limitations on Liens

The indenture limits the amount of liens that we or our Subsidiaries may incur or otherwise create, in order to secure indebtedness for borrowed money, upon any Principal Facility or any shares of capital stock that any of our Subsidiaries owning any Principal Facility has issued to us or any of our Subsidiaries. If we or any of our Subsidiaries incur such liens, then we will secure the debt securities and, in the case of liens upon any Principal Facility owned or leased by PM USA, then PM USA will secure the guarantee of the debt securities to the same extent and in the same proportion as the debt that is secured by such liens. This covenant does not apply, however, to any of the following:

- in the case of a Principal Facility, liens incurred in connection with the issuance by a state or political subdivision thereof of any securities the interest on which is exempt from federal income taxes by virtue of Section 103 of the Internal Revenue Code of 1986, as amended, or any other laws or regulations in effect at the time of such issuance;
- liens existing on the date of the indenture;
- liens on property or shares of capital stock existing at the time we or any of our Subsidiaries acquire such property or shares of stock (including acquisition through merger, share exchange or consolidation) or securing the payment of all or part of the purchase price, construction or improvement thereof incurred prior to, at the time of, or within 180 days after the later of the acquisition, completion of construction or improvement or commencement of full operation of such property for the purpose of financing all or a portion of such purchase or construction or improvement; or
- liens for the sole purpose of extending, renewing or replacing in whole or in part the indebtedness secured by any lien referred to in the foregoing three bullet points or in this bullet point; *provided, however*, that the principal amount of indebtedness secured thereby shall not exceed the principal amount of indebtedness so secured at the time of such extension, renewal or replacement, and that such extension, renewal or replacement shall be limited to all or a part of the property that secured the lien so extended, renewed or replaced (plus improvements on such property).

Notwithstanding the foregoing, we and/or any of our Subsidiaries may create, assume or incur liens that would otherwise be subject to the restriction described above, without securing debt securities issued under the indenture equally and ratably, if the aggregate value of all outstanding indebtedness secured by the liens plus the value of Sale and Leaseback Transactions does not at the time exceed 5% of Consolidated Net Tangible Assets. (Section 1007)

At September 30, 2017, our Consolidated Net Tangible Assets were \$20 billion.

Sale and Leaseback Transactions

A Sale and Leaseback Transaction by us or any of our Subsidiaries of any Principal Facility is prohibited unless, within 180 days of the effective date of the arrangement, an amount equal to the greater of the net proceeds of the sale of the property leased pursuant to the Sale and Leaseback Transaction or the fair value of the property at the time of entering into the Sale and Leaseback Transaction as determined by our board of directors (“value”) is applied by us to the retirement of non-subordinated indebtedness for money borrowed with more than one year stated maturity, including our debt securities, except that such sales and leasebacks are permitted to the extent that the “value” thereof plus the other secured debt referred to in the penultimate paragraph above in the subsection entitled “Restrictive Covenants—Limitations on Liens” does not at the time exceed 5% of our Consolidated Net Tangible Assets. (Section 1008)

There are no other restrictive covenants in the indenture. The indenture does not require us to maintain any financial ratios, minimum levels of net worth or liquidity or restrict the incurrence of indebtedness, the

Table of Contents

makeup of asset sales, the payment of dividends, the making of other distributions on our capital stock or the redemption or purchase of our capital stock. Moreover, the indenture does not contain any provision requiring us to repurchase or redeem any debt securities or debt warrants or modify the terms thereof or afford the holders thereof any other protection in the event of our change of control, any highly leveraged transaction or any other event involving us that may materially adversely affect our creditworthiness or the value of the debt securities or debt warrants.

Defined Terms

We define “Consolidated Capitalization” as the total of all the assets appearing on our most recent quarterly or annual consolidated balance sheet, less (a) current liabilities, including liabilities for indebtedness maturing more than 12 months from the date of the original creation thereof, but maturing within 12 months from the date of such consolidated balance sheet, and (b) deferred income tax liabilities appearing on such consolidated balance sheet. (Section 101)

We define “Consolidated Net Tangible Assets” as the excess over current liabilities of all assets appearing on our most recent quarterly or annual consolidated balance sheet, less (a) goodwill and other intangible assets and (b) the minority interests of others in Subsidiaries. (Section 101)

We define “Principal Facility” as any facility, together with the land upon which it is erected and fixtures comprising a part thereof, used primarily for manufacturing, processing or production and located in the United States, owned or leased pursuant to a capital lease by us or any Subsidiary, that has a gross book value (without deduction of any depreciation reserve) on the date as of which the determination is being made exceeding 2% of Consolidated Capitalization. (Section 1007)

We define a “Sale and Leaseback Transaction” as the sale or transfer of a Principal Facility now owned or hereafter acquired with the intention of taking back a lease of the property, except a lease for a temporary period of less than three years, including renewals, with the intent that the use by us or any Subsidiary will be discontinued on or before the expiration of such period. (Section 1008)

We define “Subsidiaries” as any corporation of which at least a majority of all outstanding stock or other interests having ordinary voting power in the election of directors, managers or trustees (without regard to the occurrence of any contingency) thereof is at the time, directly or indirectly, owned or controlled by us or by one or more Subsidiaries or by us and one or more Subsidiaries. (Section 101)

Global Securities

We may issue the debt securities in whole or in part in the form of one or more global securities that will be deposited with, or on behalf of, a depositary identified in the applicable prospectus supplement.

We may issue the global securities in either temporary or permanent form. We will describe the specific terms of the depositary arrangement with respect to a series of debt securities in the applicable prospectus supplement. We anticipate that the following provisions will apply to all depositary arrangements.

Once a global security is issued, the depositary will credit on its book-entry system the respective principal amounts of the individual debt securities represented by that global security to the accounts of institutions that have accounts with the depositary. These institutions are known as participants.

The underwriters for the debt securities will designate the accounts to be credited. However, if we have offered or sold the debt securities either directly or through agents, we or the agents will designate the appropriate accounts to be credited.

Ownership of beneficial interests in a global security will be limited to participants or persons that may hold beneficial interests through participants. Ownership of beneficial interests in a global security will be shown on, and the transfer of that ownership will be effected only through, records maintained by the depositary’s participants or persons that may hold through participants. The laws of some states require that certain purchasers

[Table of Contents](#)

of securities take physical delivery of securities. Those laws may limit the market for beneficial interests in a global security.

So long as the depository for a global security, or its nominee, is the registered owner of a global security, the depository or nominee will be considered the sole owner or holder of the debt securities represented by the global security for all purposes under the indenture. Except as provided in the applicable prospectus supplement, owners of beneficial interests in a global security:

- will not be entitled to have securities represented by global securities registered in their names;
- will not receive or be entitled to receive physical delivery of debt securities in definitive form; and
- will not be considered owners or holders of these debt securities under the indenture.

Payments of principal of, and any premium and interest on, the individual debt securities registered in the name of the depository or its nominee will be made to the depository or its nominee as the registered owner of that global security.

Neither we nor the trustee will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests of a global security, or for maintaining, supervising or reviewing any records relating to beneficial ownership interests, and each of us and the trustee may act or refrain from acting without liability on any information provided by the depository. (Section 308)

We expect that the depository, after receiving any payment of principal of, and any premium and interest on, a global security, will immediately credit the accounts of the participants with payments in amounts proportionate to their respective holdings in principal amount of beneficial interest in a global security as shown on the records of the depository. We also expect that payments by participants to owners of beneficial interests in a global security will be governed by standing customer instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such participants.

Debt securities represented by a global security will be exchangeable for debt securities in definitive form of like tenor in authorized denominations only if:

- the depository notifies us that it is unwilling or unable to continue as the depository and a successor depository is not appointed by us within 90 days;
- we deliver to the trustee for securities of such series in registered form a company order stating that the securities of such series shall be exchangeable; or
- an Event of Default has occurred and is continuing with respect to securities of such series.

Unless and until a global security is exchanged in whole or in part for debt securities in definitive certificated form, it may not be transferred or exchanged except as a whole by the depository.

You may transfer or exchange certificated debt securities at any office that we maintain for this purpose in accordance with the terms of the indenture. We will not charge a service fee for any transfer or exchange of certificated debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge that we are required to pay in connection with a transfer or exchange. (Section 305)

Registration of Transfer

You may effect the transfer of certificated debt securities and the right to receive the principal of, and any premium and interest on, certificated debt securities only by surrendering the certificate representing those certificated debt securities and either reissuance by us or the trustee of the certificate to the new holder or the issuance by us or the trustee of a new certificate to the new holder.

Table of Contents

We are not required to:

- issue, register the transfer of or exchange debt securities of any series during a period beginning at the opening of business 15 days before the day we transmit a notice of redemption of the debt securities of the series selected for redemption and ending at the close of business on the day of the transmission; or
- register the transfer of or exchange any debt security so selected for redemption in whole or in part, except the unredeemed portion of any debt security being redeemed in part. (Section 305)

Exchange

At your option, you may exchange your debt securities of any series, except a global security, for an equal principal amount of other debt securities of the same series having authorized denominations upon surrender to our designated agent.

We may at any time exchange debt securities issued as one or more global securities for an equal principal amount of debt securities of the same series in definitive form. In this case, we will deliver to the holders new debt securities in definitive registered form in the same aggregate principal amount as the global securities being exchanged.

The depository of the global securities may also decide at any time to surrender one or more global securities in exchange for debt securities of the same series in definitive form, in which case we will deliver the new debt securities in definitive form to the persons specified by the depository, in an aggregate principal amount equal to, and in exchange for, each person's beneficial interest in the global securities.

Notwithstanding the above, we will not be required to exchange any debt securities if, as a result of the exchange, we would suffer adverse consequences under any United States law or regulation. (Section 305)

Defeasance

Legal Defeasance

Unless otherwise specified in the prospectus supplement, we can legally release ourselves from all of our obligations, with certain limited exceptions, on any series of debt securities. This is called legal defeasance. In order to achieve legal defeasance:

- we must deposit, or cause to be deposited, in trust for the benefit of all holders of that series of debt securities an amount of cash in the currency or currency unit in which that series of debt securities is payable, direct obligations of the government that issued the currency in which that series of debt securities is payable or a combination thereof that will generate sufficient cash, in the opinion of an internationally recognized firm of independent public accountants, to make interest, principal, premium and any other payments on that series of debt securities on their due date or redemption date;
- we have delivered to the trustee an opinion of counsel confirming that (1) we have received from, or there has been published by, the U.S. Internal Revenue Service a ruling or (2) since the issuance date of the debt securities, there has been a change in the applicable U.S. federal income tax law, in either case to the effect that, and based thereon such opinion of counsel shall confirm that holders of the debt securities will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the legal defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the legal defeasance had not occurred;
- no Event of Default or event that with the giving of notice or passage of time, or both, would become an Event of Default shall have occurred and be continuing at the time of the deposit described above and no Event of Default described in the fifth bullet point under “—Events of Default” shall have occurred and be continuing on the 123rd day after the date of such deposit;

Table of Contents

- such defeasance will not result in a breach or violation of, or constitute a default under, any material agreement or instrument to which we are a party or by which we are bound; and
- we have delivered to the trustee an officers' certificate and an opinion of counsel in each stating that all conditions precedent provided for or relating to the legal defeasance have been complied with.

Covenant Defeasance

Unless specified in the prospectus supplement, we can make the same type of deposit described above under “—Defeasance—Legal Defeasance” and be released from the restrictive covenants on any series of debt securities. This is called covenant defeasance. In order to achieve covenant defeasance:

- we must deposit, or cause to be deposited, in trust for the benefit of all holders of that series of debt securities an amount of cash in the currency or currency unit in which that series of debt securities is payable, direct obligations of the government that issued the currency in which that series of debt securities is payable or a combination thereof that will generate sufficient cash, in the opinion of an internationally recognized firm of independent accountants, to make interest, principal, premium and any other payments on that series of debt securities on their due date or redemption date;
- we have delivered to the trustee an opinion of counsel confirming that holders of the debt securities will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the covenant defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the covenant defeasance had not occurred;
- no Event of Default or event that with the giving of notice or passage of time, or both, would become an Event of Default shall have occurred and be continuing at the time of the deposit described above and no Event of Default described in the fifth bullet point under “—Events of Default” shall have occurred and be continuing on the 123rd day after the date of such deposit;
- such defeasance will not result in a breach or violation of, or constitute a default under, any material agreement or instrument to which we are a party or by which we are bound; and
- we have delivered to the trustee an officers' certificate and an opinion of counsel in each stating that all conditions precedent provided for or relating to the covenant defeasance have been complied with.

If we accomplish covenant defeasance, the following provisions, among others, of the indenture and the debt securities would no longer apply:

- our promises previously described under “—Restrictive Covenants—Limitation on Liens;”
- our promises previously described under “—Restrictive Covenants—Sale and Leaseback Transactions;”
- the events of default relating to breach of such covenants, described under “—Events of Default;” and
- certain other covenants applicable to the series of debt securities and described in the prospectus supplement. (Sections 402-404)

Payments of Unclaimed Moneys

Moneys deposited with the trustee or any paying agent for the payment of principal of, or any premium and interest on, any debt securities that remain unclaimed for two years will be repaid to us at our request, unless the law requires otherwise. If this happens and you want to claim these moneys, you must look to us and not to the trustee or paying agent. (Section 409)

[Table of Contents](#)

Supplemental Indentures Not Requiring Consent of Holders

Without the consent of any holders of debt securities, we, PM USA and the trustee may supplement the indenture, among other things, to:

- pledge property to the trustee as security for the debt securities;
- reflect that another entity has succeeded us or PM USA and assumed our or PM USA's covenants and obligations under the debt securities and the indenture and, in the case of PM USA, any guarantee in respect of the debt securities;
- cure any ambiguity or inconsistency in the indenture or in the debt securities or make any other provisions necessary or desirable, as long as the interests of the holders of the debt securities are not adversely affected in any material respect;
- establish the form and terms of any series of debt securities as provided in the indenture;
- add to our or PM USA's covenants further covenants for the benefit of the holders of debt securities, and if the covenants are for the benefit of less than all series of debt securities, stating which series are entitled to benefit;
- add any additional event of default and if the new event of default applies to fewer than all series of debt securities, stating to which series it applies;
- change the trustee or provide for an additional trustee;
- reflect the release of PM USA with respect to its guarantee of any series of debt securities under the terms of the indenture and the provisions of the applicable guarantee agreement; or
- modify the indenture in order to continue its qualification under the Trust Indenture Act or as may be necessary or desirable in accordance with amendments to that Act. (Section 901)

Supplemental Indentures Requiring Consent of Holders

With the consent of the holders of more than 50% in aggregate principal amount of the debt securities of each series then outstanding that would be affected by a modification of the indenture, the indenture permits us, PM USA and the trustee to supplement the indenture or modify in any way the terms of the indenture or the rights of the holders of the debt securities of such series. However, without the consent of each holder of all of the debt securities affected by that modification, we, PM USA and the trustee may not:

- modify the maturity date of, or any installment of principal or interest on, any debt security, or reduce the principal of, or premium on, or change the stated final maturity of, any debt security;
- in the case of any debt securities that are entitled to the benefits of any guarantee of PM USA, release PM USA from any of its obligations under such guarantee otherwise than in accordance with the terms of the indenture and the applicable guarantee agreement;
- reduce the rate of or change the time for payment of interest on any debt security or, in the case of OID debt securities, reduce the rate of accretion of the OID;
- change any of our obligations to pay additional amounts under the indenture;
- reduce or alter the method of computation of any amount payable upon redemption, repayment or purchase of any debt security by us, or the time when the redemption, repayment or purchase may be made;
- make the principal or interest on any debt security payable in a currency other than that stated in the debt security or change the place of payment;
- reduce the amount of principal due on an OID debt security upon acceleration of maturity or provable in bankruptcy or reduce the amount payable under the terms of an indexed debt security upon acceleration of maturity or provable in bankruptcy;

Table of Contents

- impair any right of purchase at the option of any holder of debt securities;
- reduce the right of any holder of debt securities to receive or sue for payment of the principal or interest on a debt security that would be due and payable at the maturity thereof or upon redemption; or
- reduce the percentage in principal amount of the outstanding debt securities required to supplement the indenture or to waive any of its provisions. (Section 902)

A supplemental indenture that modifies or eliminates a provision that has been included solely for the benefit of the holders of one or more series of debt securities will not affect the rights under the indenture of holders of other series of debt securities.

Redemption

The specific terms of any redemption of a series of debt securities will be contained in the prospectus supplement for that series. We must send notice of redemption to the holders at least 30 days but not more than 60 days prior to the redemption date. The notice will specify:

- the redemption date;
- the redemption price;
- the place or places of payment;
- the CUSIP or ISIN number of the debt securities being redeemed;
- in the case of partial redemption, the principal amount being redeemed;
- whether the redemption is pursuant to a sinking fund; and

Governing Law

The laws of the State of New York govern the indenture and will govern the debt securities. (Section 112)

DESCRIPTION OF DEBT WARRANTS

We may issue debt warrants in registered certificated form for the purchase of debt securities. We may issue debt warrants separately or together with any debt securities offered by any prospectus supplement. If issued together with any debt securities, debt warrants may be attached to or separate from such debt securities. Debt warrants will be issued under debt warrant agreements to be entered into between us and a bank or trust company, as debt warrant agent, all as set forth in the prospectus supplement relating to the particular issue of debt warrants. The debt warrant agent will act solely as our agent in connection with the warrants and will not assume any obligation or relationship of agency or trust for or with any holders or beneficial owners of warrants. A form of debt warrant agreement, including a form of debt warrant certificate, reflecting the particular terms and provisions of a particular issue of debt warrants, will be filed with the SEC in connection with the offering and incorporated by reference in the registration statement of which this prospectus is a part. See “Where You Can Find More Information” for information on how to obtain copies of any form of debt warrant agreement that has been filed. A summary of certain provisions of the debt warrant agreements and debt warrant certificates follows. You should read the more detailed provisions of the forms of debt warrant agreement and debt warrant certificate and any additional terms relating to the particular issue of debt warrants, which will be described in detail in the applicable prospectus supplement, for additional information before you buy any debt warrants.

General

The prospectus supplement will describe the terms of the debt warrants offered thereby, the debt warrant agreements relating to such debt warrants and the debt warrant certificates representing such debt warrants, including the following:

- the offering price;
- the designation, aggregate principal amount and terms of the debt securities purchasable upon exercise of the debt warrants;
- if applicable, the designation and terms of the debt securities with which the debt warrants are issued and the number of debt warrants issued with each such debt security;
- if applicable, the date on and after which the debt warrants and the related debt securities will be separately transferable;
- the principal amount of debt securities purchasable upon exercise of one debt warrant and the price at which such principal amount of debt securities may be purchased upon such exercise, and any provisions for changes to or adjustments in the exercise price;
- the date on which the right to exercise the debt warrants will commence and the date on which such right will expire;
- the maximum or minimum number of warrants which may be exercised at any time;
- United States federal income tax consequences;
- the identity of the debt warrant agent; and
- any other terms of the debt warrants.

Debt warrant certificates may be exercised, and those that have been issued separately or, if issued together with debt securities, once detachable, may be exchanged for new debt warrant certificates of different denominations and may be presented for registration of transfer at the corporate trust office of the debt warrant agent or any other office indicated in the applicable prospectus supplement. A debt warrant certificate that is not immediately detachable from a debt security may be exchanged or transferred only with the debt securities to which it was initially attached, and only in connection with the exchange or transfer of such debt securities. Debt warrants for the purchase of debt securities will be in registered form only.

Exercise of Debt Warrants

Each debt warrant will entitle its holder to purchase for cash such principal amount of debt securities at such exercise price as will in each case be set forth in, or calculable from, the applicable prospectus supplement relating to the debt warrants. Each holder of a debt warrant may exercise it at any time up to 5:00 p.m., New York City time, on the debt warrant expiration date set forth in the applicable prospectus supplement. After such time, or such later date to which such debt warrant expiration date may be extended by us, unexercised debt warrants will be void.

DESCRIPTION OF GUARANTEES OF DEBT SECURITIES

PM USA, which currently guarantees the indebtedness that Altria has incurred or may incur under substantially all of Altria's existing debt instruments, may issue guarantees with respect to the debt securities. Any guarantees will be issued under the indenture and a guarantee agreement to be entered into by PM USA in favor of the trustee. A form of guarantee agreement is listed as an exhibit to the registration statement of which this prospectus is a part. A summary of certain provisions of the guarantee follows. The guarantee agreement reflecting the terms and provisions of a particular guarantee of a series of debt securities will be filed with the SEC in connection with the offering. See "Where You Can Find More Information" for information on how to obtain copies of any form of guarantee agreement that has been filed. You should read the more detailed provisions of the indenture and the guarantee agreement and any additional terms relating to the particular series of debt securities to which the guarantee relates, which will be described in detail in the applicable prospectus supplement, for additional information before you buy guaranteed debt securities.

General

Any guarantees issued under this prospectus for the benefit of holders of the underlying debt securities will include the following terms and conditions, plus any additional terms as specified in the accompanying prospectus supplement.

The guarantees will provide that PM USA fully and unconditionally guarantees the punctual payment when due, whether at stated maturity, by acceleration or otherwise, of the principal of, premium, if any, and interest on the underlying debt securities ("Obligations"), according to the terms of the debt securities and as more fully described in the indenture.

Subject to the termination, release and amendment provisions described below, the liability of PM USA under the PM USA guarantees shall be absolute and unconditional irrespective of:

- any lack of validity, enforceability or genuineness of any provision of the indenture, the debt securities or any other agreement or instrument relating thereto;
- any change in the time, manner or place of payment of, or in any other term of, all or any of the Obligations, or any other amendment or waiver of or any consent to departure from the indenture;
- any exchange, release or non-perfection of any collateral, or any release or amendment or waiver of or consent to departure from any other guarantee, for all or any of the Obligations; or
- any other circumstance that might otherwise constitute a defense available to, or a discharge of, Altria or PM USA.

The Obligations of PM USA under its guarantee of the debt securities will be limited to the maximum amount as will not result in PM USA's obligations under the guarantee constituting a fraudulent transfer or conveyance, after giving effect to such maximum amount and all other contingent and fixed liabilities of PM USA that are relevant under Bankruptcy Law, the Uniform Fraudulent Conveyance Act, the Uniform Fraudulent Transfer Act or any similar federal or state law to the extent applicable to the guarantee. For purposes hereof, "Bankruptcy Law" means Title 11, U.S. Code, or any similar federal or state law for the relief of debtors.

An Event of Default with respect to the underlying debt securities will constitute an event of default under the indenture and the applicable guarantee agreement, and will entitle the holders of the guarantee debt

securities or the trustee to accelerate the obligations of PM USA under the indenture and the applicable guarantee agreement in the same manner and to the same extent as Altria's obligations under the indenture.

Termination

PM USA will be unconditionally released and discharged from the obligations under the guarantee upon the earliest to occur of:

- the date, if any, on which PM USA consolidates with or merges into us or any successor to us;
- the date, if any, on which we or any successor to us consolidates with or merges into PM USA;
- payment in full of the Obligations pertaining to such guarantee; and
- the rating of our long-term senior unsecured debt by Standard & Poor's Rating Services of "A" or higher.

Amendment

Except as provided (i) above under "Description of Debt Securities—Supplemental Indentures Requiring Consent of Holders" and (ii) in this paragraph, PM USA may amend the guarantee at any time for any purpose without the consent of the trustee or any holder of debt securities entitled to the benefits of PM USA's guarantee. If such amendment adversely affects the rights of any holder of a series of debt securities entitled to the benefits of the guarantee, the prior written consent of the trustee, acting on the written direction of the holders of more than 50% in aggregate principal amount of such series of debt securities, will be required. If such amendment adversely affects the rights of the trustee, the prior written consent of the trustee will be required.
